Thursday, December 19th, 2019 at 14:00

Bernstein Center for Computational Neuroscience, Humboldt University Berlin

BCCN lecture hall, Philippstr. 13, House 6, 10115 Berlin

14:00 Welcome and introduction by Prof. Dr. Michael Brecht

15:00 Eduard Maier (PhD Student)
Cortical circuits underlying vocalizations and ticklishness in rats

15:20 Wei Tang (Postdoc)
Optogenetic manipulation of the somatosensory cortex during play behavior

15:40 Konstantin Hartmann (PhD Student)
Localization of the vocal pattern generator in the mammalian brainstem

16:00 Elcin Tunkol (PhD Student)
Kin Recognition and Mate Choice in Mice

16:20 Ann Clemens (Postdoc)
Neural mechanisms of kinship behavior in the rat

16:40 The end
